Professional Summary

Ambitious and detail-oriented Computer Science graduate with a strong foundation in AI and web development, seeking to leverage exceptional problem-solving, communication, and analytical skills in an HR role. Proven ability to analyze complex data, optimize processes, and deliver effective technical solutions. Eager to contribute to a dynamic HR team by applying a data-driven approach to enhance employee experience and organizational efficiency.

Education

Bachelor of Technology - Artificial Intelligence

Anurag University | 2024 - Present | CGPA: 9.53

Intermediate (MPC)

SR Junior College | 2022 - 2024 | CGPA: 97.5%

SSC

SR Digi School | 2021 - 2022 | CGPA: 9.8

Projects

AI Medical Diagnosis System

Tech Stack: Python, Flask, HTML, CSS, JavaScript, CouchDB

GitHub: [GitHub Link](#)

- Developed a web-based system enabling disease prediction from user input and analysis of chest X-ray images using Python AI backend. Focused on user experience and seamless integration, demonstrating strong problem-solving and application development capabilities.

WorkMate AI (Full-Stack Platform)

Tech Stack: MERN Stack

GitHub: [GitHub Link](#)

- Built a full-stack platform for worker-contractor collaboration, including attendance tracking and salary slip generation. Implemented features like role-based access and multilingual support, showcasing ability to develop user-centric solutions for organizational needs.

AI-Based Risk Management System for Banking

Tech Stack: Python, Scikit-learn, XGBoost

GitHub: [GitHub Link](#)

- Developed and optimized fraud detection models on a large dataset, achieving high accuracy (ROC-AUC > 0.95) through advanced machine learning techniques. This project highlights strong analytical skills and the ability to drive data-informed decision-making.

Skills

HR Communication, Problem Solving, Data Analysis, Teamwork & Collaboration, Adaptability, Python, JavaScript, HTML, REST API Development, Git, Attention to Detail

Certifications

- AWS Academy Graduate - Cloud Foundations - AWS Academy
